

Kingdom of the Netherlands

Event Invitation:

The Future of Cyber Security

December 11 (Wednesday) – 18:30-20:30

@ Embassy of the Kingdom of the Netherlands to Japan

The Embassy of the Kingdom of the Netherlands to Japan and the Netherlands Chamber of Commerce in Japan (NCCJ) would like to welcome you at a new event on December 11. After successful events on topics such as Innovation and the Labor Market, we would like to introduce another relevant topic to you: **Cyber Security**. Event participation goes without any costs and drinks and food will be served. Feel free to forward this invitation to your IT division and other colleagues that might be interested.

Speakers at the event will provide you with useful insights and perspectives on cyber security. **Hidemitsu Sakurai, Head of Sales Engineering of McAfee** and **Bart Kulach, Head of Technology of NN Life Insurance** will share their perspectives on a topic that Prime Minister Abe calls “vital for Japan to maintain an advantage in new realms”. Besides the actual presentations, there will be time for questions and networking.

As available seats are limited, we recommend you to register at your earliest convenience.

Event: The Future of Cyber Security

Date and Time: December 11 (Wednesday), from 18:30-20:30

Location: The Residence, Embassy of the Kingdom of the Netherlands to Japan (3-6-3 Shibakoen, Minatuo-ku)

Registration: <https://forms.gle/pj7dZ8k9DcrP2JZz6> **Photo ID required upon entrance.**

Inquires: nccj@nccj.jp

Registration deadline: November 27

We are looking forward to your participation.

Thank you and best regards,

The Embassy of the Kingdom of the Netherlands to Japan

The Netherlands Chamber of Commerce in Japan

Kingdom of the Netherlands

Introduction of the speakers:

Hidemitsu Sakurai / Head of Sales Engineering / McAfee Japan

What is Cloud Security? Why is it needed?

Cloud usage such as Business SaaS (e.g. O365, SFDC, Box, etc...), IaaS/PaaS (e.g. AWS, Azure, GCP, etc...) is rapidly increasing. Mr. Sakurai will explain the latest threat landscape of cloud and the method of securing your cloud environment.

Hidemitsu Sakurai joined McAfee in December, 2006 after he served as a consultant in domestic cyber security company. Hidemitsu has been in charge of large enterprise and public customers to propose McAfee entire solution from device to cloud in Sales engineering department.

Hidemitsu is now serving as Head of Japan Sales engineering department and is also a spokesperson of McAfee Japan in regards to any cyber security topic related to enterprise business.

Bart Kulach / Head of Technology / NN Life Insurance Japan

Tackling business information security – how to keep up with the dynamics of infosec?

The vast speed of change in technology makes security management an ever-challenging task. In his presentation, Mr. Kulach will share ideas on how to tackle the current dynamics of infosec in enterprise environments.

Bart Kulach has 15+ years of international work experience in various IT audit, IT security and risk functions as subject matter expert, manager and coach, with strong technical and process related expertise, combined with broad hands-on experience.

He has been advising board members and senior (IT) executives on IT security and governance, performing vulnerability assessments, security investigations, physical security tests, as well as being involved in creation and execution of security remediation plans.
